

WHAT'S IN MY CITY?

Mapping my city's Lebanese community

What's in my community?

Begin by understanding the Lebanese diaspora within your community. Make note of its demographic features, its active organisations, and the different community groups operating within your city. You can always start with your friends and family.

Try networking within different community groups to create engagement, raise interest and build relationships. Use Social Media to find similar such groups.

Utilize the outreach templates within the toolkit to reach out. Get in touch with them and spread the word about Sawti and the importance of active citizenship. And most importantly for mapping purposes, make note of their address, contact details and type of activity. Make sure that they consent to you sharing this information if it's not already public.

Encourage them to follow, subscribe and be involved in events that Sawti has to offer. If you would like to organize an event, the Sawti team can assist with planning.

Target Areas:

- Existing family and friends
- Lebanese Foundations
- Consulates and Embassies
- Associations
